This is the worst example of them all and points out my position that you are going to hurt yourself by such attempts. If I had not noticed this you would have charged the lot to yourself at \$70 less 20% commission and I would have received \$56 and lost \$44 on the coin. Lots 400 and 401 were started at \$95 and there was no bidder. Lot 402 was the same series and cost the same as 403. Can't you see how trying to pull a deal like this would make collectors (if they knew) suspicious that you could not be trusted. As a matter of fact you boasted to me and seemed quite proud of the fact that YOU had "bought" one of the Iranian pieces when I raised the question as to why none of the English bidders had shown any interest in this series. I DEFINITELY WANT THIS COIN BACK along with 400-401.

403	30.	20.	Don't know	Maybe buy back
450	50.	41.	Baldwin	WHY?

I hope that you will read this letter carefully and then read it again. If I haven't made myself clear I will be glad to amplify. Or, if you wish, show this letter to someone whose judgement you respect and ask his opinion. Believe me, it is important to you.

Sincerely your well wisher,

Howard D. Gibbs

AGREEMENT

HOWARD D. GIBBS 1112 Berkshire Avenue, Pittsburgh 26 Pa. hereinafter known as "Gibbs" being the owner of a large collection of old coins of Mexico, Central and South America, various Islands including the West Indies and other which he desired to dispose of, and HANS E.F. SCHULMAN, 545 Fifth Avenue, New York 17 N.Y. an established coin dealer hereinafter known as Schulman do hereby enter into an agreement as follows:

- (a) Gibbs will prepare a complete descriptive catalogue of all the above mentioned series of coins and will properly pack and ship them by Railway Express to Schulman at New York;
- (b) Gibbs will maintain ownership of all said coins until they have been sold and the proceeds less commissions has been paid.
- (c) Schulman will prepare and have printed a high class printed catalogue with necessary illustrations:
- (d) He will use the descriptions as given by Gibbs and illustrate all coins marked "PLATE" by Gibbs unless changes are agreed upon in advance! *Demand 5% less than*
- (e) He will have printed ~~one~~ platted catalogues, fifty copies of which along with realized prices will be supplied to Gibbs!
- (f) Said catalogues shall be printed and mailed to dealers and known collectors outside of the United States not less than 60 days prior to the date of the public auction.
- (g) Said catalogues will be mailed to those on the Schulman mailing list located within the United States not less than 30 days before the date of the public auction:
- (h) The public auction will be held at the Waldorf-Astoria Hotel in New York City in quarters equal to those used by Schulman in previous large sales:
- (i) Schulman will charge Gibbs a commission of 20% of the amount received by the actual sale of all coins belonging to Gibbs:
- (j) Gibbs shall have the right to attend the auction or be represented thereat:
- (k) Gibbs shall have the right to bid at the auction or to submit in advance of the opening day of the auction a minimum bid or a starting price bid below which no lot shall be sold unless by mutual written agreement made prior to the sale.
- (l) Gibbs shall not be required to pay any commission on any lots that are not sold at or above his minimum or starting bid and all such coins shall be returned to him after the sale is over.
- (m) Schulman agrees to pay Gibbs Five Thousand Dollars on account of or before the final day of the sale; and additional ~~Five thousand~~ Dollars on or within thirty days after the sale and the balance ~~to be paid~~ within sixty days after the sale; ~~or day after the sale~~
- (n) Schulman agrees to obtain and deliver to Gibbs an insurance policy for ~~one~~ thousand dollars covering loss by fire or theft. Policy to be effective upon delivery of the said coins to the Railway Express Company Money Division, Pittsburgh, Pa. and to remain in effect until final payment is made for the coins sold and/or the return of unsold coins to Gibbs in Pittsburgh.
- (o) In as much as this collection represents the largest sale of such coins and will therefore be a "standard" reference for many years to come an offer shall be made by advertising in trade papers and magazines of numbered bound copies including sales price at ~~per copy~~ per copy. After determining the cost of printing, mailing and other expense one half the net profit shall be paid to Gibbs. Any copies not sold at the end of one year from final day and date of the sale shall be divided equally between Schulman and Gibbs.

Memo from the desk of . . . *Sept 26*
Mr. SCHULMAN

Dear Howard:

I glad you were feeling better. I was really worried.
I wrote the following:

"What we can have available, would make the Chase Bank Coll. small + unimportant. The collection must be bought over a period of many years. The collection cost 200,000 dollars to the owner. Can be an advertising write-off! It would take about 6 months to mount the collection properly - That collection is not available for rental" -

"We can prepare monthly rental exhibits from stock and the collectors duplicates" -

Dear Howard: Was glad to receive your letters. The delivery here is terrible. Your letter of July 4 and July 18 arrived at the same time. That is I mean they were delivered to me at the Hotel on the same day. I know that all foreign mail is being censored and do not object but I don't understand why there should be any reason to hold them up after they have been checked.

I am feeling fine and looking forward to leaving for Rome on August 4. Will see Leu in Lucerne on your account and will visit our friends Munzen & Medallien in Basil. While I understand your reluctance in breaking up your German thaler collection into parts I believe Leu is the best people to handle the rarities and I am quite sure that the modern coins will bring MORE in USA than they do in Germany. Collectors there have the modern coins but either lost or had to sell their better coins to live during the war. Also many collection were looted during the war and occupation. Many business men are getting rich and there are many collectors who will buy coins if they are made available. However, we can discuss this matter when I return which I hope will be about August 19.

Am very much interested in the Kays collection and hope you can get it for our Spring auction. From your letters I take it that you have put in eight days in the cataloguing and have been paid \$300 your regular fee for six days. However, the job is not finished as part of the collection has not been located. Therefore, I suggest that you tell the Trust Company that you will give them whatever time is necessary to finish the job of cataloguing the missing coins if they are located (as I am sure they will be as from your description they are heavy, bulky and in some cases quite large). I leave this to your judgement provided you are reasonable sure the collection will eventually be given to me for sale and I will pay you your regular fee for whatever time you spend over and above the eight days.

I am going to see Calico in Barcelona as they have been stalling now for two years. The second section of the Marquis d LL collection should have been turned over to us at least a month ago and I am worried for fear we won't have time to have the photographs made and the plates finished in time for our November 18-19 sale. It would be expensive and embarrassing if we have to postpone this sale on their account. However, you know the Spaniards as well as I do..they never do anything today that can be put off until manyana.

Helen tells me all is going well in New York and your catalogue No 45 of our stock is pulling very well. I have picked up quite a nice lot of material which we will need to replenish our regular stock. Will tell you all about my personal affairs when I see you. Hate to say this but if the Calico matter gets rough we may have to change our plans and ask you to return to New York Sept 1 instead of the 15th. Give my regards to Helen. Did she have her operation? Give my regards to Dr Katz when you see him. I still think he will be a collector again. Be well and will see you soon.

ROSSIA, Copper plate money. You say FIVE KOPECK"
 60 x 60 dated 1796. This intrigues me. There was
 no Russian copper plates dated this late. They are all 1726-1727.
 Next, if your coin is dated 1726 and is 60x60 then it would be a TEN
 KOPECK. After I get back home December 6 I would appreciate it if
 you would send this piece for my inspection.

Now..I am going to "stick my chin out". I have been
 a collector for 62 years and I know dealers. I sincerely hope you
 can find one who can find a buyer for your odd & curious collection.
 There is one thing that worries me. As you probably know in some
 series, particularly the CHINESE EARLY COINS. Many are fakes. Any
 buyer interested in your collection would be expected to call on an
 expert to pass on such specimens. I am therefore suggesting that
 after I return Dec 6 I will list the Chinese pieces that I think
 may be counterfeits and have you send them on for my opinion. I have
 over 14,000 Chinese specimens and I do know this field. Any that
 are not good should be taken out before the collection is shown
 as it would immediately throw suspicion on all the other specimens.

Sorry to be so long winded but wanted to get this off
 Enclosed for you to think about until I return. Received your letter
 as soon as package arrives will write you.

SALT BRICK MONEY

The SANKURU TRIBE in the Belgian-Congo, not having access to any natural salt use certain swamp reeds which they burn, their ashes are collected and water is filtered through them into troughs made of bark. A smouldering fire is lit underneath and the water evaporated, leaving the salt behind. Because of the reeds used the salt is pink to red.

See E. Jordal, Roman Hardy 1931 page 134 Plate XVII.

TWISTED IRON "COUNTRY MONEY" GUINEA & LIBERTIA

Thin twisted iron "pennies" with tail at one end and wing at the other, similar to the Gizioni or Kissi Tribe "pennies" of Liberia but only eight to twelve inches (8 to 12") long and very thin and fragile.

Used by the MANDINGO, VAI, GBONDI, KPELLE, LOMA AND MENDE TRIBES

Used as money, for barter and for buying wives up to 1943 when their use was forbidden. However, missionaries say they are still used (illegally) in the bush country. Now quite rare.

TWISTED IRON "COUNTRY OR BUSH MONEY" OF GUINEA

These thin fragile iron pennies with a tail at one end and wing at the other resemble the much heavier and longer former iron pennies used in Liberia. From only eight to twelve inches long (8 to 12") they were used as money, in barter and FOR BUYING WIVES! They were outlawed in 1943 but missionaries say they still circulate in the "bush" in secluded areas. Now rare.

Used by the MANDINGO, VAI, GBONDI, KPELLE, LOMA AND MENDE TRIBES

TWISTED IRON "BUSH MONEY" OF GUINEA, AFRICA

These thin fragile iron pennies with a tail at one end and a wing at the other resemble the much heavier and longer iron pennies of Liberia. From only eight to twelve inches (8 to 12") they were used as regular money, for barter and for WIFE BUYING" up until 1943 when they were outlawed. However, missionaries say they are still in use in very remote areas altho illegal. Formerly used by the MANDINGO, VAI, GONDI, KPELLE, LOMA, MENDE TRIBES. QUITE RARE NOW.

to South America, Australia, Philippines, Formosa, Japan, etc. They will have them four weeks before the sale in their possession. To Europe we air-freight ~~at~~ the entire lot to Haller in several cases about February 14th so that everybody else has them 4 weeks before the sale in Europe too. Quantities go to Baldwin, Spink, etc. I would like you to give me some special names to send catalogues to. I may have these names but if they were not active, they may not be on my list anymore.

Zita is already working on the pictures, cutting them out. ~~Half~~ Half of them are photographed. Murray is advancing fast now too. The index is 3/4 finished but the strike made it a close squeeze. Bob has finished all but 200 lots. He did a nice bit of editing, I think. He enjoyed that he could learn these coins a bit and thinks this catalogue very educational as well as ~~interesting~~ interesting.

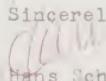

I found some coins in my own stock and I think that I should at least profit from my own sales by putting these in. They are put in between as "A" number. They are only date varieties in most cases and all together they do not amount to a lot of beans. They are mine and nobody else's and at least, I have an opportunity to get a good price. I expect the ~~sale~~ to be a success. The cost of sale will not leave too much over. Operation today costs so much more than several years ago. So these few dollars to help out cost should be welcome. I told you I would not take any other person's coins in this sale between the lots. That is logical.

By the way the Haiti lot is at the end of the sale, after all your coins are sold and it can only enhance the collection. It is a gorgeous lot as any have rarely seen yourself. I want ~~you~~ to tell me if I should put on the heading "From other consignment" or let it go through as part of the Gibbs catalogue. Everybody knows you had regular Haiti coins too.

Just stop being aggressive with me. I don't like it from friends. You don't need to and you know it. I wouldn't mess you up because I don't mess myself up and I know how to run sales. By the way, the lots Murray left out were his errors. They have been corrected. Thats what I meant with left out lots.

Will see you soon.

Sincerely,

Hans Schulman
